SUSTAINABILITY IS NOT JUST A MATTER OF CHOICE

FOR THE PLANET

We push for progress. And for us, that also means taking responsibility ourselves: **For our fellow human beings, our environment, our products and their manufacturing processes.**

We always want to attach great importance to fair dealings with our employees, suppliers, customers and all those involved in the production and supply chain. We conscientiously accept the challenge of protecting the environment and set out on the path to change. We want to reduce our environmental footprint further and further and produce more and more sustainably.

THIS IS OUR CONTRIBUTION - FOR THE PLANET

In the interest of better readability, we refrain from using both the masculine and other forms in the absence of gender-NEUtral wording. The chosen masculine formulations therefore apply without restriction to the other genders as well.

Our main catalogues are printed with an innovative UV printing solution to achieve improved recyclability. Thanks to the use of a new type of ink series, the printing ink can be removed more easily in the recycling process, enabling optimal recycling management.

The paper we use for printing, Soporset Premium Offset, has been certified according to the paper specification OCR (ISO 1831:1980), high opacity, with volume, EU Ecolabel and FSC®.
